

# Summary of research proposal LROI

**Title:**

Total knee arthroplasty after high tibial osteotomy and unicompartmental knee arthroplasty

**Authors:**

T. Duivenvoorden, J.A.N. Verhaar, M. Reijman, H. Verburg, R.W. Brouwer, T. Voskuijl

**Abstract:**

We want to perform a survival analysis of patients who underwent total knee arthroplasty (TKA) after high tibial osteotomy (HTO) or unicompartmental knee arthroplasty (UKA) and compare these survival rates with patients without prior surgery.

**Approval date (amendment):** October 2019

Approval date original proposal: December 2017
